<https://github.com/aryan503110>

Aspiring MERN developer with a passion for building dynamic user-friendly web applications. Proficient in MongoDB, Express.js, React and Node.js with hands-on experience in creating full-stack projects. Excited to contribute to innovative teams and develop solutions that make a meaningful impact.

PROJECTS

React Password Manager

- Created a Password Manager using React and designed using Tailwind CSS.
- Allow users to store passwords securely within the application.

Todo App

- A simple and efficient todo app built with React, designed to help users manage their tasks.
- The app features a user-friendly interface where users can add and delete tasks.

Spotify Clone website

- A responsive Spotify clone with HTML, CSS and Javascript designed to mimic the look and feel of popular streaming service.
- Users can browse through list of songs, play, pause and adjust the volume using custom controls.

Twitter UI Clone Website

- A Twitter Clone created using Tailwind CSS designed to emulate the core features of the popular social media platform.
